SYNOPSIS OF COAL MINING REGULATIONS

Coal mining within the Dominion in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories, British Columbia, may be leased for a term of twenty years or less, at a rental of \$2 per acre, or more than 2,500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-agent of the district in which the rights are applied for for the district.

In approved territory the land must be described by sections, or legal subdivisions of sections, and in unapproved territory the land applied for shall be staked out.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights are not granted, but if granted the fee will be paid to the land office.

The lease will include the coal mining rights only, but the lessee may be permitted to use the land for other purposes, such as agriculture, stock raising, etc.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

W. W. Cope,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any person who is a citizen of the Dominion of Canada, or a person who has been a resident of the Dominion of Canada for at least one year, and who is not a member of the armed forces of the Dominion of Canada, may be entitled to a homestead of 160 acres of land.

The homestead must be located in the Northwest Territories, or in any of the Provinces of Canada, and must be of the size of 160 acres.

The homestead must be located in a section of land which is not already settled, and must be of the size of 160 acres.

The homestead must be located in a section of land which is not already settled, and must be of the size of 160 acres.

W. W. Cope,
Deputy Minister of the Interior.

BLAIRMORE IS GROWING FAST

MUCH BUILDING GOING ON—SEVERAL BUSINESSES OPENED.

HAS NEW BRICK PLANT

U. S. Pelletier Ready to Begin Operations With Pressed Brick Works—General Plant Making Good Progress. Coal Company Also Advancing.

There are evidences on every hand that Blairmore's growing time is on. More building than has ever been done in any year past is in progress, several new business institutions have recently started and in every direction there is activity such as has never been known before.

During recent times four new businesses have been established, a hardware store, a drug and stationery store, a new barber shop and last week Attorney Palmer and Thompson of Pincher Creek opened offices.

In a building way the number of residences going up is astonishing. The flat on the south side from the Pelletier residence to the mine is dotted with houses being built or just completed while several are in course of erection on the north side.

The new Baptist church is all but completed. The outside is finished and painted and the building presents the finest appearance of any church in The Pass.

Robert Lake, promoter of the water works, has returned to town and it is expected something will be done shortly toward getting the system under way.

In an industrial way conditions are most encouraging. The Rocky Mountain Cement Company is steadily at work installing the plant and getting things in shape for the opening which is expected will take place in August if machinery now en route arrives in time.

The work is now something better than fifty per cent completed and pending the arrival of the ten cars of machinery necessary to completion, everything is being gotten ready to enable its installation to be made quickly. Manager W. J. Budd still thinks his former estimate that August would see the works running, will hold good.

The most notable outward evidence of progress of the past week was the erection of the two big stacks but much is going on in the interior that does not show to the casual observer.

Another notable item of industrial progress is to be found in the new Pelletier brick plant. This works has been completed within the last few days and it is expected the plant will be in operation inside of a week.

The plant is one of the finest and most modern in the west and temples of brick already turned out indicate it will put an exceptionally fine article of brick on the market.

The mine of the West Canadian Collieries, Blairmore's other important industry, is also making much progress. The spur to the mine has been recently completed and a temporary tipples installed and coal is now being shipped in the cars from the mine entry.

The development of the mine is advancing, the number of men employed is steadily increasing and the prospects are that the mine will occupy an important place in the coal industry of the district before the year is out.

Altogether Blairmore presents a picture of general progress that is most gratifying to all old timers of The Pass.

W. W. Cope,
Deputy Minister of the Interior.

WARNING

Owing to the fact that my farm affords about the only place of recreation in Frank and the further fact that numerous persons abuse the privileges accorded them by discharging firearms, cutting trees and breaking fences, I feel called upon to serve notice that in future any person who discharges firearms, cuts trees or breaks fences on my premises will be prosecuted for trespass.

Mark Drum.

SAD DEATH OF YOUNG MAN

An accident most distressing occurred in the mine of the Canadian-American company last night about 10 o'clock in which Thomas Parker Kidd, a young man just turned 18 majority, lost his life.

The unfortunate young man was employed as driver's helper and was just starting out with the last trip shortly after 10 o'clock when the accident occurred. He stepped between two cars at the head of the trip and got into such a position that his body was considerably above the cars with the result that his body came in contact with a low hanging chute and a car and terribly crushed.

Martin Kubik the driver, heard his companion's outcry and quickly stopped the cars. Others near at hand helped to lift the injured young man into an empty car and he was taken out as quickly as possible but he died before reaching the wash house to which he was taken. Internal injuries was the cause of death. Coroner Pinkney will hold an inquest. The funeral will be held tomorrow.

The deceased was the son of Thomas and Mrs. Kidd who have been residents of Frank but a few months and was the main support of the aged parents and a large family. The parents and two sons came here a few months ago and the son had been in the employ of the company about four months. The family came originally from county Durham, England to Ontario about a year ago. The deceased leaves both parents, two brothers and three sisters to mourn his loss. He was a fine, manly young fellow and greatly liked by his employers and associates.

GOLD IN SASKATCHEWAN

A Paynton, Sask. news dispatch says:

A gold and silver mine was discovered seven miles south of 1901 and a large number of claims have already been staked. The town is practically deserted today, everybody left to stake out a claim. The gold and silver is in quartz and gravel and was analyzed by A. Forbes M. D., of Duluth, Minn.

One sample of quartz assayed \$999.14 in gold to the ton and \$6 in silver and a sample of gravel went \$28.10 in gold to the ton.

The country is rough and hilly and full of gold and silver.

Notice to Creditors

In the matter of the estate of Constant Boomey late of Gillingham in the province of Alberta, deceased.

NOTICE is hereby given that all persons having any claim or demands against the late Constant Boomey who died on the 6th day of June 1905 at Brandon in the province of Manitoba, are required on or before the 15th day of July 1909 to send by post prepaid to The Trusts and Guarantee Company, Limited, at Calgary, in the province of Alberta, administrator of the estate of the said Constant Boomey or to deliver to the undersigned solicitors for the said Company their names and addresses and full particulars of their claims in writing and a statement of their accounts and the nature of the securities if any held by them, and such statement shall be verified by Statutory Declaration of the claimant or his agent.

And take notice that after the 15th day of July 1909, the said The Trusts and Guarantee Company, Limited, will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which it shall then have had notice, and that such statement shall be verified by Statutory Declaration of the claimant or his agent.

ARE STILL UP IN THE AIR

ARBITRATION BOARD ENDS SESSIONS BUT NO RESULT.

MEMBERS DISAGREE

Chairman and Sherman Agree to Recommend Plan of Settlement but Opponents' Representatives Make Minority Report, Dissenting.

The board of arbitration and conciliation in the coal strike ended its labors at Fernie yesterday and adjourned but without definite result. Majority and minority reports were made. The majority report is by Chairman H. R. Grant and F. H. Sherman, arbitrator for the men while Colin McLeod, representative of the operators makes a dissenting minority report.

The majority report recommends the adoption of the idea suggested last week and in effect is that an agreement be drafted along the lines of the old agreement with the discrimination clause eliminated and the dropping of the closed shop contention.

It is not known what Mr. McLeod's report embodies but inasmuch as the operators have all the time contended that the Macleod agreement was to all intents and purposes just what the majority of the arbitration board now recommends, it is assumed that Mr. McLeod's recommendation will be that the Macleod agreement be signed up. However, there is nothing definite given out as to Mr. McLeod's position and the opposition in relation thereto is purely conjecture. It is definitely known that Mr. McLeod is writing a very detailed report of the deliberations of the board and that it will be considered at a meeting of the operators to be held at Macleod tomorrow.

FRANK PLAYED STRONG GAME

Frank again put up an exceptionally strong game in the league football series when Coal Creek met the local eleven on the home grounds Saturday evening and again only missed a win through sheer hard luck. The teams were so evenly matched that neither seemed able to score on the other except in a single instance when Frank was within a hairs breadth of a goal but Hutton coming late could not stop and passed the ball and the one chance to score was lost.

The game was beautifully played throughout on both sides and kept a crowd of at least 400 persons on the keen edge from start to finish. The Frank boys demonstrated that if they but hold their own no other team of the league will come here and take a way a score the best of any game.

The only other game of the week was between Michel and Bellevue on Bellevue field, in which Michel rather put over the home team, winning by a score of 3-0.

This game puts Michel clearly in the lead while Bellevue drops back to fourth place. Homer comes to Frank Saturday evening with a win for the home team is fully anticipated.

The appearance of Chambers on the Frank forward line greatly strengthened the team in Saturday's game and Frank team is now a strong in that department as any team in the league.

Following is the standing of teams to date.

Team	Won	Lost	Draw	Points
Michel	4	0	1	9
Fernie	2	0	4	8
Coal Creek	2	1	2	6
Bellevue	2	2	1	5
Coleman	2	2	0	4
Frank	0	1	2	2
Homer	0	5	0	0

ARE WE FORSAKEN

Evidence accumulates, judging from appearances on the face of things that The Pass is forsaken of the Alberta government. Whether or not there is foundation for such a judgement, certain it is that the general public is rapidly coming to that opinion and as no member of the government nor any person having even remote connection with it is apparently doing anything to counteract the development of such an opinion there seems on the face of things to be justification for the fact that probably with a vast majority of the people of the district it is gradually becoming a settled conviction that such is the case. Go into any camp in The Pass and every day of every week you may hear people give expression to that belief and you will hear it as often from liberals as from people of any other political persuasion. There is no use attempting to disguise the fact or discount the truth of that statement, it is literally true. The reason for it is to be found in the utter neglect of the district that has been manifested by the government and everybody connected with it since the election in March. On election day, C. M. O'Brien who was chosen member of the legislature was presumed to be somewhere in the constituency; probably it is not known definitely whether he was or not but he was presumed to be. Since that day no member of the government, no member of the legislature and no person holding any official position under the government has been seen in The Pass barring the license inspector and the coal mine inspector. With these exceptions the people of The Pass have had no outward evidence of any character whatsoever that there is a government in Alberta. Presumably the same is true of the northern end of the Rocky constituency.

In days gone by we have been wont to be visited by one or more of the members of the legislature, all ways by our local member, sometimes by other members and particularly by a member of the government, notably the minister of public works who have come to inquire into our needs and to apportion so much of public benefits as might be determined should be allotted to us. And thus, while we have never received a just or equitable proportion of governmental benefits, we have hitherto had outward evidence that there was a government in Alberta and that it was cognizant of the fact that within the boundaries of the province whose affairs were administered by that government, there was a district which had come to be known to fame in its humble way, as The Pass.

But we have no such evidence since the government was returned to power. As far as The Frank Paper has been able to learn, the local member has not stepped foot within the boundaries of his constituency since the day he was elevated to a position of honor, higher probably, than he ever dreamed he would attain. No more has any representative of government manifested any concern for the welfare of the district or so much as acknowledged the fact of its existence. We do not think that there is any other constituency in Alberta, even to the farthest removed which has not had some interest shown in its existence and probably few if any of any importance which have not been visited by some representative of government whose mission was to inquire into the needs of the locality as regards those things which it is the province of government to provide. When we reflect that this is undoubtedly true and contrast the treatment other sections are receiving with that accorded the richest and most populous district of like area in

all the province, it is not to wonder that people feel The Pass is forsaken or that the erstwhile popularity of the Rutherford government is waning at a rate that is distressing in its extreme to those who have always believed in it and upheld it as they do their religion. And there are many such who are finding it more and more difficult to find words of excuse for the government's neglect and more and more difficult to retain their own faith. When we remember that since spring opened wagon communication between Frank and Coleman has been almost impossible and that until within the past few days probably not a single heavy vehicle has passed between Bellevue and the prairie, that neglect is forced home to us and the staunchest supporter of the government hardly has the hardihood to defend it when the charge that we are forsaken is laid or when that nasty slur is enunciated, that we are being punished for electing to the legislature a person whose presence at Edmonton will be obnoxious to the government.

The Frank Paper is not among those who have lost faith in the government. We still have the timidity to uphold it and defend it against its traducers. True we have had occasion to differ with it and have criticized it at times but because we do not approve of a good servant failing to perform his full duty by us and take pains to task where there is no reason for parting company with him if there be hope of his reformation and we are of the belief that the Alberta government is far from having passed that stage. We believe however, that if a newspaper supporting a party government has any function, one of them is to point out wherein that government errs. It has been in that spirit that we have hitherto passed criticism and it is in the same spirit and in the hope of promoting in some measure, a correction, that a statement of facts in relation to an existing condition here set down. We do not believe the government merits all the harsh things that are being said of it in The Pass. We do not believe we are forsaken or that we are being punished for sending a socialist to the legislature. We do believe the government will eventually come to our relief but in common with those others who against heavy odds maintain confidence in the faith and integrity of the government, we join in the sentimental lament: "Oh Lord, how long, how long!"

SOME FINE ATTRACTIONS

Calgary, June 16.—Robert Simon, contracting agent, for the Cole Bros circus which will be in Calgary on August 1st, visited the Alberta provincial office while in the city yesterday, to ascertain the nature of the attractions booked for the big fair at Calgary July 8 to 10. He was enthusiastic in congratulating the manager upon being able to offer what he, Mr. Simon, said would be a better bill of attractions than any of the large state fairs in the United States would present this year.

Notice To Creditors

In the matter of the estate of Donald Geddes Frill late of Bellevue in the province of Alberta, deceased.

NOTICE is hereby given that all persons having any claim or demands against the late Donald Geddes Frill who died on or about the 18th day of February 1909 at Bellevue in the province of Alberta, are required on or before the 10th day of July 1909 to send by post prepaid to The Trusts and Guarantee Company, Limited, at Calgary, in the province of Alberta, administrator of the estate of the said Donald Geddes Frill or to deliver to the undersigned solicitors for the said company their names and addresses and full particulars of their claims in writing and a statement of their accounts and the nature of the securities if any held by them and such statement shall be verified by Statutory Declaration of the claimant or his agent.

And take notice that after the 10th day of July 1909, the said The Trusts and Guarantee Company, Limited, will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which it shall then have had notice, and that the said The Trusts and Guarantee Company, Limited, will not be liable for the said assets or any part thereof to any person of whose claim it shall not then have received notice.

Frank News in Brief

Alex Goyette, dealer in furniture and wall paper.

Dr. Macdonald is building a new cottage on the lot adjoining his residence.

That Bellevue is making marked advancement is shown by the important improvements being made by the West Canadian Collieries. In addition to a new handling plant, fifteen new cottages will be built at once, the contract for which, has been let to Fryer & Sinclair.

S. W. Cebo arrived in Frank Sunday and left again Monday. He will go to Paris to the annual meeting of the Canadian-American company which will be held next month. It is expected important announcements relative to new plans of the company will follow the meeting.

The latest dispatches relative to the tariff revision now in progress in the American congress are just as favorable to the proposal to remove the duty on coal as when the session opened. The provision of the bill removing the duty, which passed the senate will likely be replaced in the senate by one putting a duty of fifty cents a ton on Canadian coal.

The Ferbie and Coal Creek football teams meet at Ferbie Saturday and Michel and Bellevue at Michel. Frank and Bellevue expect to play a friendly match at Frank next Wednesday, the gate to go to Bellevue to assist that team in its financial affairs as owing to the strike it has been somewhat difficult to find necessary funds.

Alex Goyette is endeavoring to raise by subscription sufficient money to repair the pack trail to Byron creek and build a new one from there to the South Fork. As a great many people enjoy a trip to the South Fork and a good trail would be of much advantage to the people of the district, the movement is worthy of liberal support.

Alfred Coolidge, Aaron Kuhn, D. M. Drumheller and Wm. Moss of Spokane, all stockholders in the Maple Leaf company, visited Frank Thursday last and inspected the mine. They were much pleased with the showing. Manager Dempsey has made. The gentlemen are well known as financiers and are becoming increasingly interested in Alberta, particularly Mr. Coolidge who is a shareholder and director in the Rocky Mountain Cement company and who owns a large tract of wheat land near Taber.

Henry Gibeau has removed to Blairmore and will build a residence there.

The Rev. T. Taylor has been transferred to Fishburn and is succeeded by the Rev. T. D. Jones. Mr. Taylor's financial statement for the year ending May 15th, shows a total of contributions of \$200, plate collections amounting to \$175 or a total of \$375.

For Sale—I am offering for sale a fine section of farming land, viz: Section 23, Township 9, Range 2, west 5 meridians, situated at Livingston, Alberta adjoining the Wilson ranch. Tenders for purchase of same will be received until June 20th 1909. Address, Mrs. J. W. Curry, Box 49, Nighth Bldg., York, Sask.

W. J. McGowan of the Crows Nest Hardware company has been returning his youth this week. It all started with a surprise Monday when his dearest "illicum", J. K. Rennie walked in on him without notice. Messrs McGowan and Rennie were boys together in the old country and later were next door neighbors when their families came to Canada but they had not seen one another in some years. They have had a great time retelling the old tales. Mr. Rennie is now located at Prince Albert.

WARNING

Owing to the fact that my farm affords about the only place of recreation in Frank and the further fact that numerous persons abuse the privileges accorded them by discharging firearms, cutting trees and breaking fences, I feel called upon to serve notice that in future any person who discharges fire arms, cuts trees or breaks fences on my premises will be prosecuted for trespass.

Mark Drum.

The practice of certain persons using the property on the hill to the north of Frank as a shooting range became such a nuisance Sunday that the owner, Mark Drum, has been obliged to issue a warning to the public that the practice must cease. Sunday when anywhere from fifty to 100 persons were enjoying the day in the woods, a perfect fusillade was kept up in different parts of the grounds. As the danger, under such circumstances, of some person being shot or of stock being injured or killed is very great, the owner has deemed it necessary to forbid shooting on the premises in future as will be seen by a warning published elsewhere.

Mrs. Murphy, mother of Harvey Murphy, is visiting in Frank.

Former Secretary-Treasurer G. C. Rosholt of the Canadian American company, left Monday to take up his residence on a fruit farm on Kootenay lake.

The Bellevue church has been painted, decorated and completely refitted and on Sunday special services in the nature of a reopening will be held at 3 o'clock in the afternoon and at 7:30 in the evening. There will be special music and a wealth of floral decorations.

IMPORTANT NOTICE—Write the Leduc Produce Co. for prices on creamery and dairy butter, also fresh eggs. Prop. Lakeside Creamery, Leduc, Alta.

J. Hamer, brother-in-law of J. W. Gresham, arrived in Frank this week, direct from England to take a position with the Crows Nest Pass Hardware company.

Tim McCarthy, one of the best known of the old time Frank miners shook hands with Tim's here Tuesday. Tim is now in the government telephone service.

Charles Emmerson, superintendent for the West Canadian Collieries, at Bellevue, who has been on an extended visit to England, returned Tuesday.

PASTURE—Parties having horses or cattle to pasture for the summer months can do so for \$1.50 per head per month and over 6 head \$1.00 per head. I have for sale one horse, a powerful bay gelding, also tent 10 x 12, No. 8 stove and piping in good order, \$18.00. Apply to, F. Maguire, Passburg, Alta.

The West Canadian Collieries is about to begin the construction of a new tipple at Bellevue. The engineer is now on the ground and work will start shortly.

Efforts are being made to organize a base ball team. There is first class material for a strong nine in Frank this year if enough interest can be worked up to get things going. A meeting was to have been held Monday evening to organize but not enough turned out to warrant going ahead.

Miners and Shippers of Bituminous coal.

The Company carries three grades of coal, screened, mine run and slack. The screened is unequaled for domestic or furnace use. We recommend the mine run and slack for steam purposes, and can guarantee it to be clean and give absolute satisfaction.
